MOBILIZED COMMUNITIES PROGRAM OUTCOMES 2023

World Bicycle Relief mobilizes communities in rural regions around the world to thrive with life-changing bicycles. We envision a world where distance is no longer a barrier to independence and livelihood. Since 2005 we have mobilized more than 785,331 people and their families in 21 countries.

Addressing rural exclusion: Mobilized Communities promotes bicycle use through community-led programming and a market-based bicycle ecosystem. Its general attributes include:

- Program design based on a community mobility needs assessment, Co-created with communities,
- Includes NGO and government partners,
- Infuses gender integration,
- Locally monitored and managed,
- Nurtures a sustainable bicycle mobility ecosystem with mechanics, spare parts, and shops, and
- Embraces a holistic, multi-sectoral, multi-year program approach.

By mobilizing the education, health, economic opportunities, and environment sectors, Mobilized Communities is cost efficient and has a high return on impact. Over the long-term, World Bicycle Relief expects the program to help individuals, families, and entire communities lift themselves out of poverty.
