

2022 IMPACT REPORT

GLOBAL SUMMARY

YOUR IMPACT UP CLOSE

This year, we delivered more life-changing Buffalo Bicycles into our programs than ever before. With your help, together we are making progress toward our goal of distributing 1 million bicycles by 2025 through our sustainable, community-led and community-managed programs. To date, we have put over 700,000 bicycles on the road, expanding access to education, markets, and the vital services people need to thrive.

41%
WITH A BICYCLE,
WYNESS INCREASED
HER INCOME BY 41%

BOOSTING BUSINESS WITH HER BICYCLE

Wyness lives in the Kasungu district of Malawi. She has a plot of land 10km from her home, where she grows vegetables to sell at the local market. When her harvest is poor, Wyness sources extra vegetables from local small-scale farmers in her community.

In 2021, Wyness received a Buffalo Bicycle through the Mobilized Communities program. With her bicycle, her commute takes only 40 minutes each way instead of 2 hours on foot. The bicycle can carry a heavy load, which means she can transport more vegetables to sell. This has helped her nearly double her weekly income—an increase of 41%. The better her business does, the more she is able to order from other farmers, which improves their incomes too.
